III. RELEASE OF REQUEST FOR PROPOSALS (RFP)

PLEASE CAREFULLY READ THESE CHANGES TO THE 2022 REGULAR GRANTMAKING CYCLE

Southern Partners Fund (SPF) is pleased to announce the 2022 Regular Grantmaking Cycle. Throughout our history SPF has remained steadfast in investing into the development of rural communities across the Southeast. Now more than ever, it is critically important for us to work with our grantee partners to strengthen our communities and prepare them for the inevitable battles that lie ahead.

In 2022, SPF is going back to its principles. Sixty percent (60%) of grant making for the 2022 Regular Grant Cycle will go towards the Southern Organizing Strategy, as a result priority will be given to organizations whose work is focused in one or all of these areas of Education Reform, Immigration Rights and Voter Rights & Engagement.

The Southern Partners Fund

COMMITMENT

SPF was founded in 1998 by a coalition of 18 grassroots community organizers with the belief that it is the birthright of every American to enjoy basic rights, privileges and a quality of life; to be preserved and create a legacy for future generations. SPF serves over 75 rural community groups in 12 of the southeastern United States, including: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia. These groups represent diverse, disenfranchised people in the south from different racial/ethnic backgrounds and sexual orientations.

Our Compassion

The mission of SPF is to serve rural Southeastern communities and organizations seeking social, economic and environmental justice by providing them with financial resources, technical assistance, training and access to systems of information and power. There are two central ideas embraced in the democratic philanthropy of Southern Partners Fund: compassion and community. Compassion implies an understanding or concern for community members lacking local political power to impact the decisions that affect their lives. Community relates to the things that bring us and hold us together.

Our Courage

SPF has an accomplished history of demonstrating how collective power can act as a force for moving toward social change, by supporting issues such as: labor rights, economic and environmental justice, criminal reform, youth development, education reform, women and girl's rights; as well as housing and health reform. The rural South includes historically underdeveloped regions with citizens who have lower incomes, low levels of education and are affected by higher disease rates than the rest of the country. These citizens, who are often people of color and poor, and live in isolated tracts that reflect the legacy of slavery; must organize. They must organize to help determine their future and the future for their children.

"I had reasoned this out in my mind, there was one of two things I had a right to, liberty or death; if I could not have one, I would have the other."

Harriet Tubman, Civil Rights Activist

Our Culture

Using a grassroots perspective, we believe that culture is the essence of its people and should be valued, shared and preserved in the process. We must build our strength and unity by incorporating standards of integrity, respect, love, diversity, quality and interconnectedness.
